“A Two-Day Workshop on Electrical Power Systems”

**Date: During 29-04-2016 to 30-04-2016**

This single-track workshop is expected to bring together a broad collection of researchers from within and without AP state with two explicit purposes (i) the identifications of key challenges in the design, operation, and management of power system and markets from the macro to micro scale; and (ii) the prescription of the needed advances in systems/models/theory/algorithms to address these challenges, necessitating the development of broad and inter-disciplinary teams
